

Having problems with the size of type on a web page?

Increasing the Zoom in Internet Explorer

To increase the zoom on any page in Internet Explorer (up to 150% normal):

- 1) Locate the zoom option on the internet explorer window; it is found in the bottom right side of the window. Such as in the image.

- 2) Click the 100% two times and the zoom will change to 150%. Clicking a third time will set the zoom back to 100%.
