Fee Rec'd. \$ \_\_\_\_\_

Date \_\_\_\_\_

### A) CONSTRUCTION

1. For new construction, additions or other modifications of a property which involve the removal of a protected tree(s), a site plan is required. This site plan must have a minimum scale of 1"=20' for single family lots, or 1"=50' for all others. The site plan must include:

- a. Major Changes of Grade
- b. Structure Locations
- c. Driveways and Walks
- d. Parking Arrangement
- e. Required Number of Parking Spaces
- f. Proposed Number of Parking Spaces
- g. Proposed Underground Utilities
- h. Zoning Setbacks
- i. All easements and Rights-of-Way
- j. All Protected Trees Including:
  - (i.) Diameter of 4.5' above grade (DBH)
  - (ii.) Surveyed Location
  - (iii.) Species
  - (iv.) Diseased or Insect Infested Trees
- k. Tree Barricade Detail & Locations

2. Protective barriers are required around all trees remaining on site during construction. These barricades must remain intact during construction. The barriers must meet City Specifications.

### B) REPLACEMENTS

1. Tree replacement minimum standards: 10' overall height, 2.5" caliper, Florida Grade #1. See inspectors note below to determine the number of replacement trees required. Replacements required within 30 days.

I hereby certify that as property owner or as representative of the property owner, I have verified that the tree(s) sought to be removed is wholly on property owned by the above-identified property owner, and should it be determined that the tree(s) are located wholly or partially on property owned by some other person, then, I agree to hold the City of Clearwater harmless in any claim made for wrongful removal of such tree(s). I hereby certify that this application together with any plans submitted is a true representation of all facts concerning the proposed removal of the tree(s). Any deviation from the permit issued shall render it null and void and be considered a violation of the Community Development Code.
