The System:

Rates, Fees and Charges

The City Council has established a schedule of rates and charges by ordinance, which includes a purchased gas cost adjustment provision allowing the City to pass-through to customers any increase or decrease in the purchased price of gas. The City is not subject to regulation by any State agency in establishing or revising its rates. Where competitive fuel sources or transportation service are available to the customer, the City Council has authorized the City Manager to enter into contract gas service rates at special rates and/or conditions as required to obtain/retain the customer load. Such contract service must meet the normal construction feasibility formula to insure profitable payback to the City. As of September 30, 2007, contract rates applied to 704 customer accounts and impacted 30.92% of total revenues.

The rates charged by the System through September 30, 1996, were part of the Phase I Gas Rate Case implemented October 1, 1995, which was based on a comprehensive cost of service study performed by the Utility Advisory Services Group of the international accounting firm of Coopers & Lybrand, LLP (the "Rate Study"). This Phase I implementation resulted in an extensive overhaul of the Gas System customer rates, providing numerous classes of service and a modernized billing methodology.

The new rates, effective October 1, 1996, were designed to be industry-based and responsive to the competitive energy challenges. The goal of the Rate Study was to establish rates which would be fair to all classes of customers, provide funding to implement planned expansion in both existing northern Pinellas County services area and into the newly acquired southwestern Pasco service area, and provide an adequate growth potential in return to the City of Clearwater to further offset the ad valorem tax rates (current impact is about 0.5 mills).

As the result of experiences during the first seven months of the Phase I implementation, adjustments made to the Phase II rates were implemented October 1, 1996, and additional adjustments (Phase III) were implemented effective October 1, 1997. The total projected impact of both new phases of the rate case is \$1.05 million or less than 7.9% of total gas sales revenues.

The rate ordinance containing the Phase II and Phase III rate changes was approved by the City Council on June 6, 1996.

Gas rates for customer charges were increased effective April 1, 2005. The total estimated annual impact of this rate increase is \$373,352.

GAS SUPPLY

On August 1, 1990, the Federal Energy Regulatory Commission (FERC) deregulated the natural gas pipeline industry. This allows other natural gas suppliers and local distribution companies, like the City of Clearwater, to transport gas over the Florida Gas Transmission (FGT) pipelines as opposed to purchasing natural gas supply from only FGT.

The two natural gas transmission companies that serve within the State of Florida are Florida Gas Transmission (FGT) and Gulfstream. Currently FGT is the sole provider of transportation service to the City. FGT is equally owned by Cross Country Energy Corp (owned by Southern Union) AND Southern Natural, an El Paso Corporation Affiliate.

The City joined Florida Gas Utility (FGU) in October 2000 by Resolution 00-35. FGU is responsible for the purchase & management of the City's natural gas supply. An updated All Requirements Gas Service Agreement, which was approved by Resolution 02-02 in January 2002, required the City to purchase 100% of its supply through FGU. FGU was formed through an Interlocal Agreement among its members. The Interlocal Agreement became effective on September 1, 1989 and consisted of five municipal utilities. Over the next several years, additional electric and gas distribution utilities joined FGU, bringing its current membership to 23 entities.

In addition, the City has entered into a Gas Supply & Transportation Agreement with Peoples Gas System (PGS), dated 12/02/04, to purchase natural gas to serve customers located in our Central Pasco territory, generally east of the Suncoast Parkway in Pasco County. The City has received a letter from FGU Council, dated 8/31/04, granting the City permission to utilize Teco Peoples Gas as a third party gas supplier since FGU is unable and unwilling to provide gas to the City within the meaning of the provisions of Section 3 (a)(i) and (ii) of the ALL Requirements Gas Service Agreement between the City and FGU.

The City has two Firm Transportation Service agreements (FTS-1 & FTS-2) with FGT in order to deliver natural gas to the City's four gate stations. FGU is currently managing our Phase II (FTS-1) and Phase III (FTS-2) transportation capacity on a daily basis. Table 1 shows the breakdown of our annual gas supply entitlements with FGT. The total annual entitlement is 3,212,226 decatherms of natural gas transportation.

Table 1 Breakdown of Transportation Capacity

Service Area

The Clearwater Gas System (CGS) is owned and operated as an enterprise utility by the City of Clearwater. CGS operates over 816 miles of underground gas main and handles the supply and distribution of both natural and propane (LP) gas throughout northern Pinellas County and western Pasco County. As a “full service” gas utility, CGS provides gas appliance sales, service and repair (both commercial and residential), installation of customer gas piping, construction and maintenance of underground gas mains and service lines, and 24-hour response to any gas emergency call within the service area. CGS is regulated for safety by the Florida Public Service Commission and the Federal Department of Transportation.

CGS has been serving customers in the Clearwater area for over 85 years (since 1923) when operations were begun with a manufactured gas plant operation from coal and coke. In 1959, when natural gas transmission lines were finally extended to the Florida peninsula, CGS discontinued manufacturing gas and began receiving piped natural gas from Florida Gas Transmission.

Clearwater Gas System serves over 19,470 customers in a 330 square mile service territory, which includes 17 municipalities as well as the unincorporated areas of northern Pinellas County and western Pasco County. The Pinellas County service territory is 181 square miles and extends generally from Ulmerton and Walsingham Roads on the South to the Pasco County line on the North and from the Gulf of Mexico on the West to the Hillsborough County line on the East. This includes all of the Pinellas beach communities south to Redington Beach. The Pasco County service territory is 117 square miles and extends from the Gulf of Mexico on the West inland about 10 miles to just West of State Road 41 and Land O’ Lakes (generally along the right-of-way of the Suncoast Parkway) and from the Pinellas and Hillsborough County lines on the South to generally State Road 52 on the North. The CGS service territory extends 42.3 miles from the southernmost to the northernmost points.

Clearwater Gas System prides itself in being a competitive and public service-minded utility, providing safe, economical and environmentally-friendly gas, which is made in America, available in our communities for all of the homes and businesses in our service area, with special focus on the residential customers who make up 88.54% of our customer base.

Rates, Fees And Charges

The City uses a three-tiered rate structure for water and sewer usage. The base rate includes a minimum usage for residential and nonresidential water rates. Any usage over the minimum is billed at one rate per 100 cubic feet up to a designated level and at a second rate for usage over that level. For irrigation, there is a base rate, with no minimum, and a charge per 100 cubic feet of water usage up to a designated level and a higher charge for usage over that amount. The sewer base rate includes a minimum usage and a fixed charge per 100 cubic feet of water usage over the basic allowance. The minimum usage and second tier usage level vary with the size of the meters. For fiscal year 2007 there were no changes to the three-tiered rate structure for water or sewer usage. Effective October 1, 2000 the basis for billing was converted from cubic feet to gallons.

Rates, Fees, and Charges

The City uses a measurement of one equivalent residential unit or ERU as the basis for the stormwater management utility fee. The rate per ERU was unchanged from the inception of the utility on January 1, 1991 until 1998 when annual increases were adopted for five fiscal years beginning October 1, 1998. In November 2001, additional increases were adopted including a change to the increase previously adopted, to be effective October 1, 2002. Effective August 5, 2004, additional increases were adopted. On July 20, 2006, rate increases were adopted for the five-year period beginning October 1, 2007. The monthly rates are as follows:

<u>Effective Date</u>	<u>Rate Per ERU</u>
January 1, 1991	\$3.00
October 1, 1998	\$4.00
October 1, 1999	\$4.17
October 1, 2000	\$4.35
October 1, 2001	\$4.54
January 1, 2002	\$6.13
October 1, 2002	\$7.16
October 1, 2003	\$8.01
October 1, 2004	\$8.65
October 1, 2005	\$9.35
October 1, 2006	\$9.71
October 1, 2007	\$10.51
October 1, 2008	\$11.14
October 1, 2009	\$11.80
October 1, 2010	\$12.51
October 1, 2011	\$13.26

Single-family homes, multifamily units, condominium units, apartments and mobile homes are rated as one ERU per dwelling unit. Nonresidential property is charged at the rate of 1,830 square feet of impervious area per ERU.

(1) The Improvement Revenue Refunding Bonds, Series 2001, were issued October 15, 2001 in the amount of \$11,470,000. They were secured by a lien upon and a pledge of the Public Service Tax pursuant to Section 166.231, Florida Statutes as amended. Effective October 1, 2001, the Florida Legislature repealed the public service tax on telecommunications created per Section 166.231(9), Florida Statutes, and created a simplified tax structure for communications services pursuant to Chapter 2000-260, Laws of Florida. To the extent that the Public Service Tax receipts derived by the City pursuant to Section 166.231(9), Florida Statutes, is eliminated as a result of this new tax, all of the revenues received by the City pursuant to the new Communications Services Tax shall be deemed to replace the Public Service Tax receipts so eliminated. Consequently the pledged revenues include both public service taxes and communications services taxes effective October 1, 2001.

**City of Clearwater, Florida
Fire Services Program
Supplementary Information**

Pursuant to agreements between the City of Clearwater, the Pinellas County Fire Authority and the Pinellas County Emergency Medical Services Authority, the City has provided fire and emergency medical services to the respective authorities. With respect to fire services, the services are provided for the benefit of properties located outside the corporate limits of the City, but within a designated service area. Emergency medical services are provided for the benefit of persons residing both inside and outside the corporate limits of the City, based on the Authority's nearest unit dispatch policy.

With respect to the Fire Services Program, a budget was prepared by Fire Department personnel covering proposed expenditures for fiscal year ending September 30, 2007, for the Fire Department as a whole. Since the funding for the Emergency Medical Services Program is based on the level fixed in prior years, the Fire Services Program budget is essentially the residual obtained by deducting the approved level of funding for the Emergency Medical Services Program from the budgeted amounts included in the total Fire Department budget. This budget was submitted to, and duly approved by, the relevant Authority prior to the commencement of the fiscal year. Income received from Pinellas County Fire Protection Authority and valid program expenditures for the Fire Services Program for the fiscal year ended September 30, 2007 are summarized below.

Total Revenue Received from Pinellas County Fire Protection Authority	<u>\$ 2,556,770</u>
Total Fire Service Expenditures for Fiscal Year Ended September 30, 2007	<u>\$ 20,454,128</u>

The Fire Services Program does not currently utilize an equipment reserve.
