

City of Clearwater Handicap Parking Rules

- Valid Handicap Parking Permits and/or License Tags must be properly displayed and **only** used when the vehicle is transporting the person to whom the displayed permit is issued.
- **Off-Street Metered Parking (parking lots):**
Permit is valid at any metered parking space without any time restrictions regardless of the time limit on the meter. The only exception is when the spaces are posted with a time restriction for Handicap Parking (i.e., Marina parking – two hour limit). (F.S. 316.1964(2)).

All other rules of the spaces / lot must be followed (i.e., No Parking after 10:00 PM).

- **On-Street Metered Parking:**
Permit is valid at any metered parking space located “on-street” with a 4 hour time limit regardless of the posted or meter time limit.
(F.S. 316.1964(5))
- **Parking Garage:**
A valid handicap permit / tag does **NOT** exempt the driver from paying all parking fees in any cashier operated parking facility (i.e., surface lots or parking garages) **unless** the vehicle is equipped with specialized equipment, such as ramps, lifts, or foot or hand controls **OR** the vehicle is properly displaying the Florida Toll Exemption permit. In either of these two cases, the vehicle would be exempt from paying parking fees.
(F.S.316.1964(8))
