

NOTICE NO.1
for
MSWRF Gates Replacement
Project Number 18-0047-UT

DATE: March 28, 2022

SUBJECT: Notice No. 1

TO: Prospective Bidders and Other Concerned Parties

Bidders on the above project are hereby notified of the following items:

1. The bid plans for this project were developed using construction plans from a different project. As such, the bid plans contain old “grey” callouts from the other project that aren’t a part of this one. Care should be taken when reviewing the plans to identify and distinguish the “bold black” proposed items from the “grey” items. It is highly suggested that review of these plans be performed digitally so that the plans can be magnified.
2. The means and methods of process bypass will heavily influence the cost of this project. Prospective bidders are encouraged to refer to appendix pages 610 through 613 of specifications PDF for a conceptual bypass plan for this project.

END OF NOTICE #1
