

Pre-qualification Reference Document

In order to be eligible to bid on the NE WRF Improvements Project (City Project# 19-0029-UT), a contractor must be pre-qualified with the Engineering Department's Construction Division (Section II – 2.1) **and** must be selected to be included in a short-list by meeting supplemental project-specific pre-qualification criteria (Section IIA).

Please note - if a contractor is already pre-qualified with the Engineering Department's Construction Division (Section II – 2.1), contractor is only required to be selected to become eligible to bid on this project by meeting the supplemental project-specific pre-qualification criteria (Section IIA).

The instructions on how to become pre-qualified with the Engineering Department's Construction Division can be referenced in Section II, 2.1 of the Specifications. The link in this section will take you to the City's website where the application and specific instructions can be downloaded at the bottom of the page.

The instructions on how to be selected to become eligible to bid on this project by meeting supplemental project-specific pre-qualification criteria can be referenced in section IIA of the Specifications.
