INSTRUCTIONS – EVALUATION

- i.22 **EVALUATION PROCESS.** Bids will be reviewed by the Procurement Division and representative(s) of the respective department(s). The City staff may or may not initiate discussions with bidders for clarification purposes. Clarification is not an opportunity to change the bid. Bidders shall not initiate discussions with any City employee or official.
- Respondent is hereby notified that Section 287.05701, Florida Statutes, requires that the City may not request documentation of or consider a vendor's social, political, or ideological interests when determining if the vendor is a responsible vendor.
- i.23 **PRESENTATIONS/INTERVIEWS.** The bidder must provide a formal presentation/interview upon request.
- i.24 **CRITERIA FOR EVALUATION AND AWARD.** The City evaluates three (3) categories of information: responsiveness, responsibility, and price. All bids must meet the following responsiveness and responsibility criteria to be considered further.
- a) Responsiveness. The City will determine whether the bid complies with the instructions for submitting bids including completeness of bid which encompasses the inclusion of all required attachments and submissions. The City must reject any bids that are submitted late. Failure to meet other requirements may result in rejection.
 - b) Responsibility. The City will determine whether the bidder is one with whom it can or should do business. Factors that the City may evaluate to determine "responsibility" include, but are not limited to: excessively high or low priced bids, past performance, references (including those found outside the bid), compliance with applicable laws-including tax laws, bidder's record of performance and integrity - e.g. has the bidder been delinquent or unfaithful to any contract with the City, whether the bidder is qualified legally to contract with the City, financial stability and the perceived ability to perform completely as specified. A bidder must at all times have financial resources sufficient, in the opinion of the City, to ensure performance of the contract and must provide proof upon request. City staff may also use Dun & Bradstreet and/or any generally available industry information. The City reserves the right to inspect and review bidder's facilities, equipment and personnel and those of any identified subcontractors. The City will determine whether any failure to supply information, or the quality of the information, will result in rejection.
 - c) Price. We will then evaluate the bids that have met the requirements above.
- i.25 **COST JUSTIFICATION.** In the event only one response is received, the City may require that the bidder submit a cost proposal in sufficient detail for the City to perform a cost/price analysis to determine if the bid price is fair and reasonable.
- i.26 **CONTRACT NEGOTIATIONS AND ACCEPTANCE.** Bidder must be prepared for the City to accept the bid as submitted. If bidder fails to sign all documents necessary to successfully execute the final contract within a reasonable time as specified, or negotiations do not result in an acceptable agreement, the City may reject bid or revoke the award, and may begin negotiations with another bidder. Final contract terms must be approved or signed by the appropriately authorized City official(s). No binding contract will exist between the bidder and the City until the City executes a written contract or purchase order.
- i.27 **NOTICE OF INTENT TO AWARD.** Notices of the City's intent to award a Contract are posted to Purchasing's website. **It is the bidder's responsibility to check the City of Clearwater's website at <https://www.myclearwater.com/business/rfp> to view relevant bid information and notices.**

- a. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.
 - b. The City may purchase the services required under the Agreement from the open market, complete required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price, the City may recover the excess cost by: (i) requiring immediate reimbursement to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and/or performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as provided by law. Costs includes any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement, including, but not limited to, administrative expenses, attorneys' fees, and costs.
 - c. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.
 - d. Neither party will be liable for incidental, special, or consequential damages.
- S.19 **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.
- S.20 **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement at its convenience, in part or in whole, upon thirty (30) calendar days' written notice.
- S.21 **TERMINATION FOR CONFLICT OF INTEREST.** The City may cancel this Agreement after its execution, without penalty or further obligation, if any person significantly involved in initiating, securing, drafting, or creating the Agreement for the City becomes an employee or agent of Contractor.
- S.22 **TERMINATION FOR NON-APPROPRIATION AND MODIFICATION FOR BUDGETARY CONSTRAINT.** The City is a governmental agency which relies upon the appropriation of funds by its governing body to satisfy its obligations. 2.2 Landscaping Services Work Specifications. The Contractor shall provide the following full scope of services at each designated location during each scheduled visit. ALL services are required – the variance is only in frequency and schedule for each location.

2.2.1 Litter Removal

Cleaning of the entire grounds shall be performed as part of regular maintenance. During each scheduled maintenance visit, remove trash and debris from the site. Properly dispose of the trash and debris, including cigarette butts, loose paper, and other bits of small debris. All paper, trash, leaves, twigs, branches, dead plants, trimmings, pruning and other objectionable materials shall be picked up and removed from all landscape areas as well as adjacent parking lots, driveways, sidewalks, and entrances within the site limits. Remove all debris, which accumulates in the corners of the parking lots and besides parking stops. the City as additional services. The Contractor should report such accumulations of debris when encountered. Quotations for any extraordinary cleanup from the Contractor will be considered.

2.2.2 Turf Maintenance

Lawn mower blades shall be clean, kept sharp, and well-adjusted to provide a clean cut. No more than one-third (1/3) of the total grass blade shall be removed per mowing, while cutting grass too closely (scalping) shall be avoided. Mowing patterns shall be changed regularly to avoid rutting. Use small mowers for difficult or tight areas where larger commercial mowing units cannot maneuver.

Turf areas shall be maintained at the appropriate height indicated below:

<u>TURFGRASS</u>	<u>MOWING HEIGHT</u>
St. Augustine	Three (3) to four (4) inches*
Bahia	Three (3) to four (4) inches*

*Higher cutting heights to be used during dry conditions

Mowing shall be done optimally when the grass is dry; however, mowing wet turf is acceptable. Bagging is not required, and grass clippings can be left on the grass so long as no readily visible clumps remain on the grass surface after mowing. If clippings are excessive or diseased, they shall be removed after mowing to enhance overall turf appearance and to prevent matting, clumping, and thatch buildup. In the case of fungal disease outbreaks, clippings will be collected and disposed of offsite until the disease is controlled.

The Contractor will clean all clippings, dirt and debris from sidewalks, curbs, storm drains, valve boxes and roadways after mowing and/or edging. Mowers should not direct discharge into the street or landscape beds, unless unavoidable. Approved deflector chutes must be attached on the discharge points of the mower. Clippings, dirt, and debris will not be swept, blown or otherwise disposed of in any landscaped bed areas, roadways, sewer drains, catch basins, drainpipes, storm drains or open culverts of storm sewers. The final appearance after mowing shall present a neat appearance.

If the turf becomes sparse or barren due to neglect by the Contractor, the Contractor shall repair or replace sod to meet its previous healthy condition at no additional cost to the City. Turf areas shall be always kept as green and healthy as possible, while maintaining a high level of appearance.

Care shall be taken with mowing equipment to avoid obstructions such as trees, shrubs, utility boxes, signage, buildings, etc. Contractor shall be responsible for damage caused by its operations.

Seeding and sodding is not a requirement of this Invitation to Bid. Such work may result in an additional charge to the contract, based on a request from the City for quotations and must be approved by the City in writing.

Turf edging shall be performed at the same frequency as mowing and shall include walks, drives, curbs, planting bed perimeters, tree rings, storm drains, valve boxes, bollards, air reliefs, and other structures that accumulate grass around them. String trimming is not to be performed against the base of any tree or shrub. Isolated trees and shrubs growing in lawn areas require a mulched buffer area around the base of the plant to avoid bark injury from mowers and to reduce root competition from turfgrass (minimum one (1) foot radius from edge of trunk or shrub drip line). Grass adjacent to all valve boxes and quick couplers shall be trimmed to maintain a clean appearance. Grass adjacent to structures, poles, etc. that cannot be serviced by standard mowing procedures, shall be regularly trimmed using a line trimmer to eliminate uneven edges or an approved herbicide may be used to create a buffer around infrastructure and trees. Herbicides shall not be used as an

DETAILED SPECIFICATIONS

"edger" adjacent to walks and curbs but may be used around shrubs and trees by a certified applicator with the written approval of the City.

2.2.3 Shrub and Groundcover Maintenance

Pruning is defined as the selective elimination of branches to maintain or improve the size or shape of a plant. Trimming is defined for shrubs and ground cover as cutting of the overall tips of a plant to give a smooth, squared, hedge-like appearance. The growth characteristics of some plant species require pruning; others require trimming to look their best. All plant materials shall be maintained in a neat, well-manicured fashion at all times.

All shrubs and ground covers shall be pruned to maintain the suitable size and character of the plant. Adjacent to site vehicle entrances, no shrubs or groundcovers shall be allowed to grow above the Florida Department of Transportation (FDOT) "Clear Sight Window" Criteria when in sight visibility triangle.

Plants that have a natural "unpruned" form should be selectively pruned, except for removal of dead or damaged branches and leaves or to maintain a certain height required by the plant material usage. These shrubs will be pruned with hand shears as needed to provide an informal shape, fullness, and bloom. Examples of these types of plants are Parson's Juniper, Bird of Paradise, Crinum Lily, Cardboard Palm, King Sago, Heavenly Bamboo, Split- Leaf Philodendron, Red Fountain Grass and Schefflera.

Plants used as linear hedges or borders should be trimmed squarely with top of hedge slightly narrower than the bottom to facilitate exposure to sun and prevent heavy shading of lower foliage. Use a "rounding" method when the hedge forms the bordering edge of a serpentine bed design, in which case round only vertical faces of border. As new foliage fills in, remove excessively long branches to encourage fullness and good shape. Examples of these types of plants are Pittosporum, Podocarpus, Silverthorn, Oleander, Boxthorn, Viburnum, and Indian Hawthorn.

Groundcover species shall be confined within the perimeter of the planting bed and shall be maintained a minimum of twelve (12) inches away from building structures. Groundcovers shall be edged and maintained along all hardscapes with each site visit. Supplemental top shearing may be required to present a neat appearance. In addition, all climbing vine-like groundcovers shall not climb up through other plant species within planting bed or structures, unless specified by the City. Examples of groundcover types include Confederate Jasmine, Lantana, Liriope, Aztec grass, Ivy, Ornamental Sweet Potato and Perennial Peanut.

During the growing season (April-October), all high maintenance shrubs and groundcovers may require additional trimming during each visit. All low maintenance shrubs and groundcovers will be trimmed as needed. During the winter season (November-March) all shrubs and groundcovers shall be trimmed as needed to maintain a neat appearance. Ornamental grass species shall be renewal pruned down to eight (8) to twelve (12) inches in height in late February each year. Perennial Peanut shall be maintained between three (3) to six (6) inches in height and shall be mowed and/or line trimmed during one (1) monthly visit in the months of April, June, and August, or unless changed by the request of the respective department representative.

Do not trim or shear shrubs into topiary forms unless specifically requested by the City. Allow shrubs to form a dense mass of plants at the height determined by the City.

2.2.4 Weed Control in Landscaped Areas

The Contractor shall monitor the landscape for weeds at each scheduled service visit. All planting beds and tree rings are to be kept weed-free throughout the year to avoid competition with desirable plants, as well as to enhance the appearance of the overall design. All weeds shall be removed from landscape beds and properly disposed from the site, on the same day by the Contractor.

DETAILED SPECIFICATIONS

Undesirable weed species shall be removed by hand or through chemical applications. Chemical products such as a selective, non-selective or a pre-emergent approved by the Environmental Protection Agency may be used for weed control with the City's written approval.

Herbicide application locations must be pre-approved by a City representative and shall not be applied adjacent to any Wastewater treatment process equipment or structures. Use of herbicide which is non-toxic to fish or wildlife, such as 37.3% diquat dibromide (brand name Reward or Tribune) shall be used with the City's written approval.

Weeds, which have been chemically treated, shall be removed from the landscape after overall plant color quality has changed from green to yellow. Should these chemicals damage any desirable plant material, including sod, the Contractor at no cost to the City, shall immediately replace the same size, quantity, and quality of plants.

Weeds on hardscapes such as walkways, permanent and temporary parking lots, adjacent public and private roadways, pavement cracks and any other paved areas, including rights-of-way and adjacent work areas within the contract limits, shall be removed by hand, or chemically killed and removed with each service.

2.2.5 Mulch Maintenance

The Contractor shall notify the City if the level of mulch or condition of mulch in any area that has deteriorated. The Contractor will maintain the mulch to be free of weeds around individual trees, shrubs, and palms in turf areas. The City may at its option request a quote for mulching applications from the Contractor, for which the City would provide the mulch.

2.2.6 Inspections

Each site should be checked for irregularities, such as irrigation leaks, vehicle damage, dead turf or plant material, heavy insect infestations (especially fire ants), vandalism, etc., and any findings should be promptly reported to the respective department representative.

The Contractor will assist the City by reporting vandalism, graffiti, damage or need of repair/refurbishing of public and private property, such as for traffic or directory signs, structures, site furnishings, monuments, fences, lighting, utilities, and paving.

The Contractor will be responsive to special conditions or unexpected problems that may occur during the contract term. The City expects the full cooperation and prompt response by the Contractor.

The Contractor may be requested to provide additional services, such as seasonal flowers and plants for various occasions and functions within the City. Such work would be requested by quote and must be approved by the City in writing.

2.2.7 Additional Landscaping Services Requirements

All visits to the Public Utilities sites will require a member of the Contractor's team to sign in/out at the operations office or information box at each visit.

Mowing shall consist of all areas within the fenced area of the named facility. In addition, for the Water Reclamation Facilities (WRF's) specifically, shall include the area outside the fence to the edge of road, including the area between fence and sidewalk and from the sidewalk to edge of road.

Mow the pond banks and storm water swales as close to the water as possible. If area is too wet to service on the scheduled visit, area shall either be line trimmed or mowed on the next scheduled visit to avoid damaging of the grade.

DETAILED SPECIFICATIONS

Prune all shrubbery as required, to maintain clear walkways and driveways. All hedges must be trimmed every other visit to maintain a clean appearance. Trim around all trees, shrubs, bushes, buildings, sidewalks, valve boxes, storm drains, structures, and other objects as part of each visit.

Clear all fence lines and fence posts of grass, vines, weeds, and debris during each visit.

3. **MINIMUM QUALIFICATIONS.** The Contractor Owner/Principal must have a minimum of three (3) years demonstrated experience with commercial or institutional landscaping services (this requirement is applicable to the "person", not the company).

3.2 Staff Certifications. The Contractor is required to have one or more permanent full-time commercial limited lawn and ornamental applicators on staff and shall provide to the city a copy of their Department of Agriculture Pesticide Applicators License. Coverage shall be obtained with a carrier having an AM Best Rating of A-VII or better. In addition, the City has the right to review the Contractor's deductible or self-insured retention and to require that it be reduced or eliminated.
