- i.22 **EVALUATION PROCESS.** Bids will be reviewed by the Procurement Division and representative(s) of the respective department(s). The City staff may or may not initiate discussions with bidders for clarification purposes. Clarification is not an opportunity to change the bid. Bidders shall not initiate discussions with any City employee or official.

- i.24 **CRITERIA FOR EVALUATION AND AWARD.** The City evaluates three (3) categories of information: responsiveness, responsibility, and price. All bids must meet the following responsiveness and responsibility criteria to be considered further.
- a) **Responsiveness.** The City will determine whether the bid complies with the instructions for submitting bids including completeness of bid which encompasses the inclusion of all required attachments and submissions. The City must reject any bids that are submitted late. Failure to meet other requirements may result in rejection.
 - b) **Responsibility.** The City will determine whether the bidder is one with whom it can or should do business. Factors that the City may evaluate to determine "responsibility" include, but are not limited to: excessively high or low priced bids, past performance, references (including those found outside the bid), compliance with applicable laws-including tax laws, bidder's record of performance and integrity - e.g. has the bidder been delinquent or unfaithful to any contract with the City, whether the bidder is qualified legally to contract with the City, financial stability and the perceived ability to perform completely as specified. A bidder must at all times have financial resources sufficient, in the opinion of the City, to ensure performance of the contract and must provide proof upon request. City staff may also use Dun & Bradstreet and/or any generally available industry information. The City reserves the right to inspect and review bidder's facilities, equipment and personnel and those of any identified subcontractors. The City will determine whether any failure to supply information, or the quality of the information, will result in rejection.
 - c) **Price.** We will then evaluate the bids that have met the requirements above.
- i.25 **COST JUSTIFICATION.** In the event only one response is received, the City may require that the bidder submit a cost proposal in sufficient detail for the City to perform a cost/price analysis to determine if the bid price is fair and reasonable.
- i.26 **CONTRACT NEGOTIATIONS AND ACCEPTANCE.** Bidder must be prepared for the City to accept the bid as submitted. If bidder fails to sign all documents necessary to successfully execute the final contract within a reasonable time as specified, or negotiations do not result in an acceptable agreement, the City may reject bid or revoke the award, and may begin negotiations with another bidder. Final contract terms must be approved or signed by the appropriately authorized City official(s). No binding contract will exist between the bidder and the City until the City executes a written contract or purchase order.

- a. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.
 - b. The City may purchase the services required under the Agreement from the open market, complete required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price, the City may recover the excess cost by: (i) requiring immediate reimbursement to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and/or performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as provided by law. Costs includes any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement, including, but not limited to, administrative expenses, attorneys' fees, and costs.

 - d. Neither party will be liable for incidental, special, or consequential damages.
- S.19 **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.
- S.20 **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement at its convenience, in part or in whole, upon thirty (30) calendar days' written notice.

2. **SCOPE OF SERVICES.** The City is accepting bids to establish a term contract for routine tree care services for municipal trees to include but not limited to tree and stump removal, stump grinding, and pruning services located throughout the City’s parklands, public grounds, public rights-of-ways, and open spaces. Services will be performed on an as-needed basis. Four (4) categories have been established: Tree/Palm and Stump Removal (Category 1), Stump Removal Only (Category 2), Pruning Procedures (Category 3), and Invasive Plant Species (Category 4).

CATEGORY 1 – TREE/PALM AND STUMP REMOVAL PROCEDURES

Tree removal includes:

- Cutting down the tree,
 - Removal of all tree debris from site,
 - Grinding the stump to eight (8) inches below the surrounding existing grade to include all visible surface roots to a depth of up to twenty (20) inches or as directed by the City.
 - Removing the stump grindings where site tree removal meets surrounding grade, and the area shall be raked and swept clean.
 - At times, the City may request stump grindings to be replaced with topsoil, regraded to meet surrounding grade, and sodded.
- The listing of the tree sizes has been rounded up or down to the nearest one (1) full inch.
For example:
 - A. 12.49-inch at tree DBH will be considered as a 12-inch diameter tree.
 - B. 12.50-inch at tree DBH will be considered as a 13-inch diameter tree.

The diameter breast height (DBH) is the measurement of the tree's trunk diameter measured at four and a half (4.5) feet above the grade. If there is a fork at or below four and a half (4.5) feet, measure the trunks narrowest point below the fork. If the tree is multi stemmed from the root collar, measure each stem at the DBH and total the trunk diameters to the nearest full inch.

The palm size is measured by the height of the clear trunk (CT).

- Where there is a multi-trunked tree that is branching from the main trunk or the root system below DBH, each trunk is to be considered a separate tree. If the tree is considered a multi-trunk, the stump shall be measured at the point that the split occurs.
- The tree stumps of all trees removed shall be removed by stump grinding eight (8) inches below the surrounding existing grade to include all visible surface roots to a depth of up to twenty (20) inches or as directed by the City.

DETAILED SPECIFICATIONS

- Stump measurements shall be based on the diameter in inches of the stump measured just above the trunk flare.

CATEGORY 3 – PRUNING PROCEDURES

- Trees shall be pruned to remove all dead, diseased, broken and crossing branches that are three (3) inches in diameter in a park or larger and two (2) inches in diameter or larger in Right of Ways or pedestrian paths.

The following guidelines shall be followed.

 - Remove suckers and stump sprouts.
 - No more than thirty percent (30%) of the living branches shall be removed per calendar year.
- To allow for proper wound closure to occur, all cuts shall be made sufficiently close to the trunk or parent limb without cutting into the branch bark ridge or branch collar (reference Figure A below) or leaving a protruding stub. Clean cuts shall be made at all times.
- Branches shall be pre-cut when necessary to prevent splitting or peeling of the bark (reference Figure B below).
