

Addendum #1
ITB #31-24, Purchase and Installation of Aluminum Signage
April 11, 2024

NOTICE IS HEREBY GIVEN that the following addendum serves to provide clarification and to answer the questions received on ITB #31-24, Purchase and Installation of Aluminum Signage.

Question 1: I see Line 1.V is electric – is there a picture of finished product? Or any other specs to show the mounting of electrical to the sign?

Answer to Question 1: A revision has been made to remove Item No. 1.V from the bid pricing. Please use REVISED Exhibit A – Bid Pricing 04.11.24.

Question 2: How much is the City's preference for the 100% recycled aluminum request?

Answer to Question 2: While it's the City's preference and is consistent with the objectives outlined in the City's Greenprint 2.0 plan, the plan does not specify a particular percentage or amount.

Question 3: Item 12 of the Detail Specifications states all signs shall be digitally printed by a certified converter and provide a durable warranty. FDOT approved products includes other reflective non-reflective sheeting manufacturers and certified converters. Will the city approve products on the FDOT approved products list?

Answer to Question 3: Signs shall be produced by a Certified Digital Traffic Converter (CDTC), or equal, converter certified by the reflective sheeting manufacturer. A valid certification of conformance showing the converter has been audited by the sheeting manufacturer and is capable of producing digitally printed compliant traffic signs shall be made available upon request.

Question 4: What Type of reflective sheeting under ASTM D4956 is required on the signs. FDOT specifications is type XI.

Answer to Question 4: As per the specifications, all retroreflective prismatic sheet material shall be guaranteed to meet all Florida Department of Transportation (FDOT) regulations and standards, specifically under Section 994 Retroreflective and Nonreflective Sheeting and Sign Panel Fabrication (latest edition).
